High Quality For The Correct Product

About us!

OPIA INNOVATION HEALTH MEDICAL was established to design and produce health, hygiene, and protective products. Our company manufactures disposable sterile and nonsterile materials, as well as sterile surgical sets, gowns, and drapes .

OPIA INNOVATION HEALTH MEDICAL is dedicated to the principle of "Unconditional Customer Satisfaction" and serves as a solution partner for its customers through clinical studies that inform the design and development of high-quality products, and through training to ensure their proper use. The company keeps up with global developments and continuously updates its processes to ensure that it delivers safe and cost-effective healthcare solutions.

OPIA INNOVATION HEALTH MEDICAL manufactures its products in a conditioned, hygienic environment within a closed area of approximately 9000m2. The company has obtained the certificates required for production in accordance with ISO 9001:2015, ISO 13795, ISO 13485, and CE standards. The sterile packaging area features a class 100,000 (heap filter) environment, and the production areas are divided into sections with controlled inputs and outputs. Surgical bundles, which are produced using the latest technology, are packed and sterilized according to user requirements. Production lines have been established to accommodate a wide range of products. Sterilization is carried out using a 16m3 boiler, and all control tests are examined daily in the company's own laboratory. Additionally, international laboratories conduct verifications of the sterilization process.

Our Mission

We are dedicated to delivering innovative and high-quality healthcare products that fulfill the needs of our customers. Our foremost commitment is to produce safe and effective solutions that contribute to the preservation of human health. Above all, we prioritize customer satisfaction, constantly striving to surpass industry standards through continuous improvement and development initiatives.

Our Vision

Our vision is to become a prominent industry leader by prioritizing sustainable research and development, nurturing an exceptional brand reputation based on customer and employee satisfaction, and upholding a strong sense of social responsibility. We aim to expand our brand globally and establish ourselves as a trusted name in the market.
